

# LOUISIANA – MUSEUM OF MODERN ART

Louisiana is located on the North Sea coast in a large park overlooking the Sound between Denmark and Sweden.

Louisiana's collection of contemporary art has an international perspective with emphasis on painting and sculpture. The collection is far too extensive to appear in its entirety, so one will experience the collection in selected, changing presentations as well as changing special exhibitions.

Louisiana displays a unique interplay between art, architecture and landscape. The park provides ideal opportunities for placing the museum's collection of modern sculptures
