

KNUTHENBORG SAFARIPARK

Visit Northern Europe's largest safari park.

There are wild experiences for the whole family. Experience giraffes and rhinos in the savannah and watch the feeding of wolves and tigers or take a ride in the "monkey bus" among baboons.

Here you can also travel back in time more than 65 million years and walk through the dinosaur forest amid lively and roaring dinosaurs such as the Triceratops or Tyrannosaurus Rex. Real fossils, large skeletons and fascinating fossils, the dinosaur's relatives today, provide exciting and entertaining learning for all ages.
