

BOSJÖKLOSTER CASTLE & GARDENS

Often called the “Pearl of the Ring Lakes”, this charming castle is situated just two and a half hours from Rødby and Gedser, in the very heart of Skåne.

Bosjökloster was founded as a Benedictine convent in the 12th Century. Today, it is the private residence of the Bonde family who has a long experience of welcoming group travellers from all parts of the world. You are welcome to a guided tour in the public parts of the castle and the medieval church, with stories about some of its interesting owners from past centuries, the gardens with, among other, a rosarium, perennial flower beds and flowering shrubs, and the park with animal enclosures and ancient trees. The oldest is the one-thousand-year-old oak tree!

Combine the visit with a meal or coffee with cakes in the restaurant. Enjoy the beauty of the surroundings, the view over the lake and the historic atmosphere.
